ABOUT SUGAR FLOWERS

Flynn's Sugar Flowers are made with high quality, humidity resistant gumpaste so you know you can rely on them to perform in Brisbane's humid climate. **DO NOT EAT THEM.** Sugar flowers are made using gumpaste in conjunction with inedible things like florist wire and florist tape with may cause injury if someone attempts to eat them.

ABOUT PRICE LIST

This price list is just a guide. You can still order flowers that are not on this list or order different sizes to those listed. Flowers may not look exactly like the pictures because I am constantly modifying and improving my techniques.

Bright/Dark colour involves colouring the whole petal surface with petal dust or airbrushing to achieve colours like bright red, bright orange, bright purple, hot pink, etc. I will let you know when you place your order if this is recommended.

Cost of shipping is not included in prices.

HOW TO ORDER

You can place an order by phone or by email. If you have any questions or specific requests, it is often easier to call that way there isn't a giant thread of emails back and forth. I'm not scary I promise :P
